“ADVANCE TRAINING PROGRAMME ON OCCUPATIONAL HEALTH FOR FACTORY MEDICAL OFFICERS”

PROGRAMME PERSPECTIVE:

The basic objective of any occupational health programme is to reduce the incidence, severity and cost of occupational accidents, injuries, and illnesses. Occupational health brings together many sciences and many social disciplines in order to achieve social progress for workers and their families. The field recognizes a social right to work in a safe workplace where due care is given to prevent injury and illness and to protect the health of workers from death, injury and disability, thereby also protecting their families and those who depend on them against loss of income and social support.

In view of the above aspects, Regional labour institute, Government of India, working under DGFASLI, Mumbai and a technical wing of Ministry of Labour and Employment, Lake Town, Kolkata-700089 has designed this 03 days advance training programme from 16th January to 18th January 2019 to augment knowledge and expertise of Factory medical officers in the field of occupational health and to facilitate the exchange of ideas and information to assist them in fulfilling the objectives of occupational health programme .
