PROSPECTUS

One-Year Post Diploma Course in Industrial Safety (PDIS)

(2014-15)

ABOUT THE INSTITUTE:

The Regional Labour Institute, Faridabad was inaugurated on the 10th February, 2009. Located in the Aravali Hills terrain the Institute is spread over 5 acres of land and is being Developed as '**Advanced Centre** in the area of MSME and chemical Process Units.' The Institute is poised to provide research, training support to the enforcement agencies and improve safety and health at work through training, studies/surveys and technical guidance.

In this endeavor, the Institute works in close coordination with the State Factory Inspectorates, employers' associations, trade unions and professional bodies to cater to the needs of the northern States and Union Territories viz. Delhi (NCR), Punjab, Haryana, Chandigarh, J&K and Himachal Pradesh.

THE COURSE PERSPECTIVE:

Rapid technological development and large-scale mechanisation are paving the road for Country's progress at the same time posing complex problems about safety and health of the industrial Workers. Accident rate in India is reducing but still it is considerably high and compares unfavorably with the advanced countries. Need of ensuring safety and health at work, therefore, is an important area for managerial action. In this context, services of qualified safety professionals in the industry to plan, implement and monitor accident prevention programmes are essential.

Recognizing this, a new Section (Section 40-B) was introduced in the Factories Act 1948 with effect from 26th October 1976. It necessitates any factory employing 1000 or more

workers or in which any process or operation is carried on, exposing any person employed in it, to serious risk of bodily injury, poisoning or disease, to employ one or more safety officers as directed by the State Government. Already many State Governments and Union territories have framed Rules under Section 40-B of the Factories Act 1948, specifying the qualifications of Safety officers and their duties. These Rules are based on the Model Rules framed by the Directorate General Factory Advice Service and Labour Institutes, Government of India. As per these Rules, for recruitment as Safety Officer, a person should possess a Diploma in industrial safety, recognized by the State Government as an essential qualification.

Anticipating the need of qualified Safety Officers, REGIONAL LABOUR INSTITUTE, FARIDABAD, conducts one-year Post Diploma Course in industrial Safety conforming to the requirements as envisaged in the Factories Rules. It is designed to provide Comprehensive education on the practical as well as academic aspects of industrial Safety and Health. This institute entertains applications from candidates employed in specific states and places from northern region e.g. Chandigarh, Delhi (NCR), Haryana, Himachal Pradesh, Jammu & Kashmir, and Punjab.

METHODOLOGY:

The course will be conducted through lectures, discussions, case studies, laboratory exercises, relevant films and factory visits. The students are also required to carry out one project & one term work during the course of the programme, as a requirement under the syllabus.
