

CALL FOR POSTER PRESENTATIONS

The 'Young Safety and Health Professionals' strive hard to meet the challenges arising at the workplace and develop best practices on safety and health. These contributions need to be recognized, appreciated and showcased for replication of the same for improving occupational safety and health at large.

The 'International Vision Zero Conference on OSH' is providing an excellent opportunity for 'Young Occupational Safety and Health Professionals' (below 40 years) to showcase their contributions and best practices on Occupational Safety and health aimed to find solutions to the problems affecting the occupational safety and health.

GENERAL GUIDELINES

- The poster should convey problem, solution (including methodology), key findings should be visually appealing to grab the attention of the delegates.
- The theme of the poster should be clear, concise and creative to convey the message.
- The presenter should be ready with handouts and other materials to answer the questions and explain the work in details.
- The author shall be available in person during the poster session.

DIMENSIONS

Poster must be vertically oriented and of size A0.

CONTENT GUIDELINES

Top of the poster

Should include the title, sub-title, list of authors, contact information (e.g., website, email etc.) and a photograph of the lead presenter at the right corner of the poster.

Main body of the poster

Organise the content of the poster in such a manner that the content is presented in a clear and coherent manner. The problem may be clearly brought out and the solution such as safe practice evolved.

Bottom of the poster

It shall include conclusion and summary of the achievements.

DEADLINE

The posters (soft copy) with all the above requirements shall be sent to conf.vz2019@gmail.com latest by 18th January, 2019. It may be noted that the space is limited. Therefore, the selection will be based on merit. The decision of the organizing committee will be final in deciding the selection of the posters.

COST

The poster presentations at the International Vision Zero Conference on OSH is made available at free of cost. However, the presenter of the selected poster has to bring the hard copy of the poster one day before the start of the conference.
